

## SIXTH BALLOT SHOWS NO CHANGE IN DOUBLE SENATORIAL DEADLOCK

LEWIS RECEIVES 85 VOTES AND SHERMAN'S TOTAL IS 74--  
BOESCHENSTEIN IN LEAD FOR SHORT TERM.

**Progressive Caucus Nominee Holds His Own on Long Term  
Ballot and Receives 43 Votes on the Short Term--Roosevelt  
Advises Progressives to Refrain From Any Combination  
With Republicans or Democrats to Elect a Senator.**

SPRINGFIELD, ILL., FEB. 26.—While practically no change was noted in the senatorial balloting today the joint session of the general assembly was enlivened by declarations from Representatives Thomas N. Gorman of Peoria, and John F. McCarthy of Chicago, both Democrats. Gorman declared his intention of remaining loyal to Colonel Lewis for the long term, and denouncing all propositions looking to trades.

Representative McCarthy served notice that he would not vote for Colonel Lewis so long as there remained in circulation for signatures of members an agreement looking to the election of Lewis and Sherman in a Democratic-Republican combination. McCarthy took the position that the Democratic party is entitled to two United States senators. In this he opposes Governor Dunne's suggestion to elect Lewis and Sherman and end the double deadlock.

A flood of bills was turned into both houses today, a large portion of them being for the usual appropriations.

Representative Karch introduced a joint resolution for a constitutional amendment permitting the initiative and referendum and setting forth a detail of its provisions.

**No Change in Ballot.**

Sixth joint ballot, for short term, resulted in no choice.

Charles Boeschstein, Democrat received 49 votes, Funk, Progressive, climbed to second place on the short term with 43 votes.

Despite the reported opposition of the leaders of the Progressive party to the candidacy of their caucus nominee for senator, Frank H. Funk of Bloomington, held his own on the long term ballot today and got up to 42 votes on the short term, Charles Boeschstein, Democratic national committeeman from Illinois, and the caucus nominee of the Democrats for the short term, was the only candidate today who received a greater vote than Funk for the short term place.

**Progressive Conference.**  
The members of the Progressive party in the legislature today held a conference at which Senator Walter Clyde Jones of Chicago read a telegram from Colonel Theodore Roosevelt advising the Illinois Progressives to refrain from making any combination with Democrats or Republicans to elect a United States senator. Senator Jones talked for twenty-five minutes advocating the stand taken by Colonel Roosevelt.

The rupture between house Progressives and Representative Frank J. Snite of Chicago, who was read out of the Progressive delegation by the Progressive state committee Saturday, came to a head during today's conference.  
Representative Snite appeared in the caucus and defied any one to attempt to put him out. Representative George Fitch of Peoria brought up the matter of Snite's status and asked whether Snite's presence was sanctioned by other members of the Progressive legislative delegation.  
Snite then announced that he would remain in the caucus to the end and insisted that the state committee had no right whatever to rule on his standing in the Progressive party.

**For Recall of Decisions.**  
A resolution for a constitutional amendment for the recall of judicial decisions was introduced in the senate today by Senator Walter Clyde Jones. It amends article IV. of the state constitution to limit the power of courts to declare statutes unconstitutional. Any act passed at two different sessions of the legislature and approved by the people on referendum cannot be held unconstitutional by the courts on any ground of public policy. That is, on the ground that it is not due process of law, violates the right of contract, or is not warranted by the police power.

**Burnett Appointed.**  
Governor Dunne's first appointment was laid before the senate morning. It was the nomination of James H. Burnette of Chicago, political writer of the Chicago Journal, to be a member of the State Civil Service Commission to succeed John A. Conley. Under the rules the nomination laid over until tomorrow.

**Initiative and Referendum.**  
Representative Karch of Belleville introduced a joint resolution providing for submission to the people of the initiative and referendum amendments to the constitution.

## NAVAL SUPPLY MEASURE PASSED

House Passes Appropriation Bill Carrying \$138,000,000

## ONLY ONE BATTLESHIP

Bill Provides for One Battleship Six Torpedo Boats and Four Submarines

## OTHER CONGRESSIONAL NEWS

WASHINGTON, FEB. 26.—After four days of debate, accompanied at times by scenes of disorder seldom witnessed at the capitol, the house tonight passed the naval appropriation bill carrying approximately \$138,000,000 and authorizing the construction of one battleship, six torpedo boat destroyers and four submarines. An amendment to provide for one battleship instead of two, as recommended by the committee, was carried by a vote of 174 to 156.

An amendment offered by Representative Calder of New York and adopted, requires that the battleship shall be constructed in a government navy yard.

As reported by the committee the bill carried appropriations aggregating \$146,000,000 and provided for two battleships, a transport, and supply ship. Points of order by Representative Sisson of Mississippi in the committee of the whole struck out the transport and supply ship. Representative Alexander of Missouri, the chairman, holding there was no authority for the appropriations because no vessels of this type ever had been authorized before.

Until today the "big navy" men headed by Representative Hobson of Alabama and Representative Ayres of New York had been confident that the two-battleship program would go through and the result was by no means certain until the final roll call on the amendment.

**Underwood For One Ship.**  
It had been contended that the Democrats were about equally divided on the proposition and that the Democratic leaders would take no active part in the fight against the committee's report. Today, however, Democratic Leader Underwood spoke for one battleship and when the vote on the amendment came, 146 Democrats voted for the amendment and only 54 against it. Of the Republicans 102 voted against the amendment and 28 for it. There was no roll call on the passage of the bill as amended but Representative Roddenberry of Georgia held up the vote long enough to predict that the senate would send the measure back with that provision for two battleships inserted.

While the amendment for one battleship, which was offered by Representative Tribble, of Georgia, was pending, Representative Hobson introduced amendments to authorize four battleships, three battleships and one battleship and a dreadnaught cruiser. Each proposition was lost by an overwhelming vote.

Throughout the consideration of the bill there were heated exchanges between members and frequent disorder. The climax came today when Representative Murray of Massachusetts standing before the speaker's table demanding recognition by the chairman, was thrown bodily down four steps and dragged toward his seat by an assistant sergeant-at-arms.

**Public Building Bill.**  
Democratic opposition to the big expenditures for public buildings embraced in the public buildings appropriation bill developed in the senate today soon after the measure was taken up for passage. Senators Hoke Smith and O'Gorman led the opposition to the appropriations and demanded that they be reduced in many particulars. "We already have gone on record as spending more money than any other congress in history," said Senator Smith, "and I don't see any reason for passing many of these big items."

"If the senate is prepared to use public funds in this indiscriminate manner," Senator O'Gorman said, "I cannot join with it although my attitude may imperil some items of vital importance to the state of New York."

Senator Smith declared the government was wasting \$600,000 in rents for buildings used in the city of Washington when it might construct sufficient office space for \$1,000,000 to house all of its detached departments. He declared modern fire-proof, steel construction of office buildings should be erected to abolish this heavy rent roll.  
Postoffice buildings to be authorized in small cities aroused the criticism of the opponents of the bill as consideration of the measure proceeded. A provision to build a \$100,000 building at Jasper, Ala., in which the population was reported as 3,000 brought the declaration from Senator O'Gorman that if this policy were to be pursued generally the treasury would be bankrupt.  
Amendments put into the bill by the senate committee and agreed to

## RECOGNITION LEFT TO NEW ADMINISTRATION

RECOGNITION OF NEW GOVERNMENT  
NEED NOT BE MADE NOW

All Necessary Business Can Be Discharged Under Existing Working Arrangement That Ambassador Wilson Has Set Up.

WASHINGTON, FEB. 26.—Practical recognition of the new provisional government of Mexico is not a matter requiring immediate attention of the secretary of state and it was made practically certain today that it is another subject which will be left to the next administration. In the opinion of state department officials the United States has no interest in Mexico that will suffer by withholding the full recognition and also all necessary business can be discharged under the existing working arrangement that Ambassador Wilson has set up. This amounts to the recognition of a de facto condition. It is no wise commits the United States government to an acknowledgment of the legality of the Huerta government and that question must be determined hereafter entirely upon the basis of performance.

If President Huerta is able to conduct his government in regular constitutional form; to maintain undisputed possession of his capital and to extend full and ample protection to foreign life and property in Mexico, formal recognition will not be withheld.

## PLANS LONG ARTIC EXPEDITION

Will Make Four Year Trip Into Unexplored Regions of the Far North.

New York, Feb. 26.—Vilhjalmur Stefansson, discoverer of the blonde Eskimo, made public today his plans for the four year expedition he proposes to lead to the arctic next May. During this time he hopes to wipe off the map much of the white space indicating unexplored regions of the far north.

Stefansson and his companions, eight or ten picked men of science, will sail out of Esquimaux, B. C., near Victoria, the latter part of May or in early June on the whaler Karluk, now in San Francisco harbor. The entire cost of the expedition is to be borne by the Canadian government. The Karluk will carry the party as far north as ice-filled seas will permit. Under favorable conditions they expect in September to reach land some where in the Buford Sea, unexplored. They will establish a base here, a vessel back and remaining during the winter. In the spring they will go north and expect to return to civilization in September, 1916.

A million square miles of snow and ice north of the North American continent and Siberia will be explored as far as possible.

## CABINET SITUATION UNCHANGED

Day's Developments Only Served to Confirm the Selections Announced.

Washington, Feb. 26.—The cabinet situation was not materially changed today from the definiteness it assumed last night. The developments of the day only served to confirm the finality of the selections of Messrs. Bryan, McAdoo, Daniels and Burleson and to disclose the various steps by which other names gradually had been eliminated from consideration. It developed also that Representative A. Mitchell Palmer of Pennsylvania had been offered and had declined the war port folio, assigning as the grounds for his declination that he was a Quaker whose antecedents did not comport with the direction of the war establishment. Another definite offer of a cabinet port folio disclosed was that to Mayor Baker of Cleveland, which also was declined because of public interests Mr. Baker had at Cleveland. It also reported that Edgar Farrell of New Orleans former president of the American Bar association, was being considered in connection with the attorney generalship.

## MANY COUNTIES REPRESENTED

Thirty-nine Counties Are Represented at Meeting of Illinois Association of Agriculture.

Springfield, Ill., Feb. 26.—Thirty-nine counties were represented at the annual meeting of the Illinois Association of Agriculture here today when the following were elected:

President—Len Small, Kankakee; vice-president, J. K. Hopkins, Princeton; secretary-treasurer, F. K. Kroh, Anna.

The members of the association may ask the legislature to appropriate \$85,000 to be distributed among the various county fair associations to be used in paying part of the premiums offered to exhibitors.

## SIR JOHN TENNIEL IS 93.

London, Feb. 26.—Sir John Tenniel, the famous cartoonist who was on the staff of Punch for more than half a century celebrated his 93rd birthday anniversary tomorrow. Expecting that he has lost his sight, Sir John enjoys remarkable health and vigor for a man of his years.

## CULLOM GIVEN UNIQUE TESTIMONIAL

Movement to Provide Committee With Portrait of Retiring Chairman Has Started.

Washington, Feb. 26.—Shelby M. Cullom of Illinois, ranking member of the senate and chairman of the foreign relations committee, who on March 4th, will retire after thirty years continuous service, the third longest record of any senator since the foundation of the government, was given a unique testimonial today by members of his committee at its final meeting.

Senator Bacon, senior Democratic member of the committee, started a movement to supply the committee a portrait of the retiring chairman and in making a report, spoke of the affectionate regard with which he said the venerable Illinois statesman was held by all members. Senator Cullom was visibly affected as other members followed with similar remarks of appreciation, dwelling upon his fairness and considerate treatment. Unanimously they expressed regret that the ties existing so long were about to be severed.

Mr. Cullom is 84 years old, being ranked in point of age only by Senator Isaac Stephenson, who is five months older. His record of continuous service is exceeded only by Former Senator Morrill of Vermont who served 36 years, beginning 1867, and Former Senator Allison of Iowa who served 35 years, beginning in 1873.

## PROHIBITS INCREASE IN RATES

Issues Order Prohibiting the Increase of Rates on Coal From Springfield to Iowa Points

Chicago, Feb. 26.—An order has been issued by the interstate commerce commission prohibiting increases in the rates on coal from the Illinois mines in the Springfield district to points in Iowa by Chicago & Alton and the Peoria and St. Louis roads. According to Chairman Lane of the commission the proposed increases were for the manifest purpose to obtain for the Chicago & Quincy railroad a practical monopoly of the local coal business for the group of mines on its line.

Mr. Lane in announcing the opinion of the commission, said:  
"It was admitted that if any higher rates were made via the Chicago & Alton and other lines to Clinton, Iowa, the Clinton buyers would be under the necessity of patronizing the local operators from the lines of the Chicago, Burlington & Quincy road."

According to the decision the carriers did not attempt to justify the proposed increases. An order entered by the commission provides that the present rates shall remain in force for two years.

## REFUSES TO TESTIFY BEFORE COMMITTEE

THAW'S REFUSAL CAUSES COMMITTEE TO ADJOURN

Thaw Declares He Will Answer Questions Only if Allowed to Testify Under Same Circumstances as Other Witnesses.

Fishkill on Hudson, N. Y., Feb. 26.—Harry K. Thaw, slayer of Stanford White, refused today to testify before Governor Sulzer's committee of inquiry which is investigating an alleged conspiracy to obtain Thaw's release from the Matteawan hospital. Thaw declared that he would answer questions only if allowed to testify "in the same place and under the same circumstances as other witnesses, and without pretense of insanity."

He said he had taken this position "on advice," but refused to say who had advised him.

Confessing that it was powerless to punish Thaw for "contumacious conduct" in view of the fact that the witness already was incarcerated, the committee decided to adjourn the hearing.

The commission came here from Albany today after hearing John Nicholson Anhalt, a New York lawyer, testify that he had received a \$25,000 fee from an agent of Thaw to obtain his release. Anhalt also testified concerning his relations with Dr. John W. Russell, superintendent of the Matteawan hospital, denying the latter's accusation that he had offered the doctor a \$25,000 bribe to aid in securing Thaw's freedom, and making the counter charge that Dr. Russell had said that he would not do anything for Thaw unless he got money for it.

## WILL NOT TENDER RESIGNATION

Minister to Chile Will Make Test of Permanency of Civil Service in Diplomatic Service.

Washington, Feb. 26.—Basing his position on the fact that he took diplomatic civil service examination as a career, Henry P. Fletcher the American minister to Chile will not tender his resignation before the inauguration of President Wilson. This determination made known here today by word of mouth from the civil service as it applies to the diplomatic branch of the government service. Although Fletcher always has been a Republican, he has made public his intention not to follow the recognized customs of offering his resignation before the inauguration of the new president. A number of American ministers, including twelve in Latin-America alone and one ambassador, Mr. Rockhill, at Constantinople, have arisen to their places from their other grades of the service, in accordance with the system of examination and promotion, created by executive order.

Many officials of this status who can assert that civil service principles have governed their appointments, may follow Mr. Fletcher's example.

## WINTER HALTS WAR'S PROGRESS

Balkan War Is Practically at a Standstill on Account of Weather.

London, Feb. 26.—The operations of the five armies engaged in the Balkan war have been brought practically to a standstill by the wintry weather. Snow storms are frequent and the roads are in a deplorable state. A despatch from Constantinople today says there has been skirmishing on the frontier of the Thetalia line by Turkish volunteers who claim to have met with some success.

The news from the neighborhood of Adrianople is conflicting. The Bulgarian war department says only desultory fighting has been in progress but a despatch from a French correspondent inside the city says that since Feb. 3rd, the Bulgarians have been delivering desperate but ineffective assaults on the fortress. The only heavy fighting except at Adrianople, since the war was resumed has taken place around Scutari, where the Montenegrin army now assisted by Serbian troops, has again failed in trying to take the fortress.

## SPRINGFIELD COMMISSION WAR

Commissioners and Mayor Have Lively Wordy Combat at Hearing.

Springfield, Ill., Feb. 26.—The warfare which has been raging for the past few weeks in the city commission of Springfield, reached a climax today during the hearing of charges brought by members of the Women's Christian Temperance union against the manner in which the States case was conducted. Commissioner of Public Works Willis J. Spaulding branded as "a dirty, contemptible lie" a statement of Mayor Jon S. Schnepf. The mayor then called Commissioner Spaulding a "liar." Instantly Spaulding was on his feet and made a rush towards the mayor when Chief of Police Underwood interfered.

Earlier in the meeting Commissioner George E. Coe had charged the mayor with seeking to put the States case out of business in order to enhance property values in the vicinity where Mayor Schnepf owns considerable real-estate.

## ASK CONGRESS FOR TWO MILLION PESOS

Government May Authorize Raising of Money by Means of Bonds

## TO BE INTRODUCED TODAY

Part of This Sum to be Used in Payment of Mexico's Indemnities

## GOVERNMENT IS CONFIDENT

MEXICO CITY, FEB. 26.—Two hundred million pesos is the amount the minister of finance probably will ask congress to authorize the government to raise by means of bonds for the pacification and rehabilitation of Mexico. At the time of the fall of the Madero regime a bill for a bond issue of 1,000,000,000 pesos for the same purpose was under discussion in congress. Minister Esquivel Obregon discussed the subjects today with a committee of congress and the measure probably will be introduced tomorrow. It is expected some part of this sum will be used for the payment of indemnities.

Emilio Rabasa, a member of the senate and regarded perhaps as the greatest authority in Mexico on international law, has been appointed ambassador to the United States.

Senator Rabasa was governor a few years ago of the state of Chiapas, but his greatest claim to distinction is his work as an attorney and as the representative of the government at international scientific congresses. He was not allied with the Madero administration, but was well known among the men of the Diaz regime.

## Government Confident.

The government looks confidently tonight to the future. It was announced officially that the rebel faculties at Laredo and Matamoras had been arranged and that troops had been sent to Aguas Calientes to install General Carlos Garcia Hidalgo as military governor.

Rafael Tapia and Ex-Governor Hidalgo of the state of Tlaxcala who are in rebellion have conferred with President Huerta offering to surrender on condition that the government give recognition to their officers, according to rank and pay indemnities and expenses. President Huerta has refused to comply with these conditions. Regarding the payment of money he declared with emphasis that the government was through buying loyalty and would instead send soldiers. It is believed Tapia and Hidalgo will not accept the challenge.

Keen satisfaction was displayed at the palace tonight over late reports from the north of the early disappearance of revolutionary disturbances in the north and in portions of the south. It is not expected that the Zapatista problem, especially in the state of Morelos will be solved immediately but several minor chiefs have announced their willingness to serve the government.

## Rebels May Join Huerta.

To the report that Emilio Madero was killed is added a rumor that his brother Raol, has met the same fate at Torreón. Both these young men were actively allied with Carranza, and if true their taking off doubtless will have a deterrent effect on rebel activity in that district.

Carranza still holds the region about Monterey.

Col. Pascual Orozco, Sr., who was allied with the movement north of Monterey, is known to have been for a long time under the domination of Pascual Orozco, Jr., and a telegram sent by the latter today to General Felix Diaz, promising absolutely allegiance to the government is regarded as indicative of his father's attitude. If all the leaders of Orozco's army follow the example of their leader it is practically certain that the Carranza rebellion will dwindle down leaving the government only the Zapatista problem to deal with.

In the capital rumors of plots and counter plots continue, but President Huerta appears to have an excellent grip on affairs and to be working in complete harmony with General Felix Diaz who desires the re-establishment of peace, as much as, or more than any one, as he is preparing for his campaign for the presidency in the general elections. Friends of Diaz met today and formally launched his candidacy.

## To Use Madero Estate.

El Paso, Tex., Feb. 26.—As a solution of demands of the northern rebels for the distribution of public lands, it will be proposed by rebel agents to the government at Mexico City to employ first the estates of the Madero family. They are among the richest chain of properties in Mexico. They compose a smelter at Torreón, mercantile house, banks and ranches controlled by the many sons of the elder Francisco I. Madero.

## Take Town of Fronteras.

Douglas, Ariz., Feb. 26.—Part of the revolutionaries from Agua Prieta joining others in the hills, attacked and took the town of Fronteras today. Of the small federal garrison four were killed and 14 wounded.

## 'BARGAINS'

The wise buyer will not be caught by an adroitly worded advertisement offering flour at bargain. Bargain in flour are as scarce as white black bird. "Pure" high grade flour is as staple as silver dollars. There is rarely a fluctuation of over more than a cent a bushel in wheat in any one day.

If flour is offered for a greater difference it will be grounds for suspicion. The buyer of alleged "bargains" gets just what he pays for, but it will not be a bargain because it will not be made from sound wheat.

Our "White Lily flour" is absolutely "pure" and "high grade" made from sound wheat and not a lower grade flour artificially treated or bleached to bring it up to standard. It is absolutely pure. Do not permit any one to offer you an imitation or substitute for White Lily Flour at a so called "Bargain"

### MANY LEAVE COUNTRY

FOR NORTH DAKOTA

Residents of Murrayville and Woodson Ship Household Goods and Stock to New Home.

The precincts of Woodson and Murrayville are poorer to day because of the large number of citizens who left Wednesday for North Dakota where they will make their home. The fever for land in the northern country spread rapidly in the part of the county and many decided to take a step this spring. Only the men folk went yesterday, and the women and children expect to go in a special coach next Wednesday.

There were eight cars that went from Woodson in charge of the following: Jefferson Henry, Oswald Wardell and Charles Asher, two cars; William and Albert Clayton, two cars; James Grimmsley and Bert Spahnower, 1 car; Singlair Sussell and Andrew Rogerson, two cars. Newton Shelton went with the Messrs. Clayton.

From Murrayville there were five cars, accompanied by the following: Albert Clayton, Arthur Clayton, Alva Bracewell, Alva Sweeney and Henry Osborne.

A large number of friends were present at the stations to wish their neighbors all kinds of good luck in their new surroundings. The train left Woodson at 3:40 and Murrayville at 6:30. The route will be to Springfield over the Air Line from there to Chicago and to St. Paul over the Northwestern with Larimore as the destination.

### POLITICS AND POLITICIANS.

Frank S. Clark of Indianapolis is the new head of the National Democratic League of Clubs.

Tammany Hall, New York's famous political organization, will be represented in the Wilson inaugural parade by 1,500 marchers.

Gen. Isaac R. Sherwood of the ninth Ohio district will be the only union veteran in the next house of representatives.

The Democratic members of the Nebraska legislature will celebrate the inauguration of President Wilson by giving a banquet on the night of March 4.

Col. E. M. House, who is mentioned as a cabinet possibility, is a man of large wealth and has been a power in Democratic politics in Texas for many years.

Chairman McCombs has issued a call for a meeting of the Democratic national committee to be held in Washington the day following the inauguration of President Wilson.

The meeting to be held in Chicago next May by the new Socialist party national committee will be the first representative Socialist gathering since the appearance of the Progressive party and the establishment of the new political alignment.

Judge Edward Swann, who has been known for years as the foe of the "police system" and men of evil deeds, is being discussed in Democratic circles as a possible nominee for mayor of New York city in the next municipal election.

"Uncle Joe" Cannon estimates that that he has had more than 6,000 colleagues during his forty years of service in the house of representatives. Of this number more than 4,000 are no longer living.

Governor Baldwin of Connecticut is said to be a candidate for United States senator to succeed Senator Brandegee. Governor Baldwin's father, the late Roger S. Baldwin, was governor of Connecticut for two terms and went from the executive chair to the United States senate. The son is now serving his second term as governor and at its end he has only to be elected to the senate to complete a noteworthy political parallel, unique in the history of Connecticut.

It is planned to have a meeting of Republican leaders in Washington next month to discuss the scheme of holding a national convention to reorganize the Republican party, as suggested by Senator Cummins of Iowa, soon after the November election. If the national committee, through the development of general party sentiment, can be persuaded to act in the matter, the national convention will be held the coming summer either in Chicago, St. Louis or Kansas City, according to the plans of those pushing the scheme.

Le Baron B. Colt, the new United States senator from Rhode Island, is 67 years old. He was born in Dedham, Mass., and comes from old Puritan stock. He was at Yale during the latter part of the civil war and was graduated in the class of '68. He studied law at Columbia college after leaving Yale, and then acted on Horace Greeley's advice and went west. For two years he practiced law in Chicago. Then he returned east and settled in Bristol, R. I., which place has since been his home. He was appointed a judge of the United States district court in 1881 and remained on the federal bench until his recent election to the senate.

**POULTRY BANQUET IN APRIL.**  
Members of the Morgan County Poultry association held a meeting in the office of Attorney W. E. Thomson Tuesday evening, when the committee appointed to arrange for the banquet reported that the exact date for the feast had not been decided and that the place was also a matter of doubt. The banquet will probably be held the first or second week in April.

**SHOULD BECOME LAW.**  
Bloomington Pantagraph: Senator Curtis has introduced a bill to change the date of the Illinois state primary election from April to the second Tuesday in September. That is one measure that ought to become a law. The primary law may need amending in other respects, but it is certain that the changing of the date as proposed is one that would be approved by the people.

### EXPECT TO COMPLETE NEW

WABASH BRIDGE TODAY

Draw Span of Large Valley City Trestle Will Be Placed Today.

This morning at 7 o'clock work will be commenced on placing the draw span of the new Wabash bridge across the Illinois river at Valley City, and it is expected that the work will not be completed for thirty-six hours. This will mean a delay of traffic and no tickets for points west of Bluffs on the Valley city branch will be sold at the local office.

This bridge has been under course of construction by the Wabash for several months and during that time a temporary structure has served to carry the traffic, but now that all is in readiness for the placing of the draw span of the new structure it will be torn away and the substitution made with all possible haste.

An eighteen hour traffic delay will result on this branch of the road, however, in spite of the best efforts of the officials and the most careful planning for the elimination of delay. Main line trains will be detoured via Clayton and Camp Point.

### EDUCATIONAL NOTES.

The Buffalo, N. Y., chamber of commerce leading in a movement to organize vocational training and vocational guidance in direct connection with the industrial, educational and social needs of the city. Under the leadership of the chamber of commerce composed of business men, school men and social workers is making a preliminary survey of the city preparatory to mapping out a definite program. The work is under the immediate supervision of E. W. Weaver, vocational director of the Brooklyn boys' high school.

Tennessee spent nearly twice as much money last year for high school purposes as the year before, and the actual number of high school buildings increased one-third. Other significant increases reported by the state high school inspector are: Enrollment, 46 per cent increase during the year; daily attendance, 47 per cent increase; length of average term, ten days more than the year before; and teachers, 65 per cent more. In the meantime the average cost of high school tuition has been reduced from \$4 to \$3.96 per month.

Superintendent Joyner of North Carolina is making a strong plea for better educational facilities for that state. Among other things he urges that women be made eligible to serve on school boards in order that the schools may have the benefit of their peculiar fitness for the work of education. He declares: "By nature and temperament and because of their strategic position in the home and in the training of childhood, women are vitally concerned and deeply interested in the work of the schools."

The Phelps-Stokes lectures on the negro problem given at the University of Virginia this year included the following subjects: Race relationships in the south; black belt negro labor in slavery and freedom—its efficiency and its cost; the economic negro; the public health relation of the race problem in the south. The aim of these lectures is to arouse a scientific interest in the better adjustment of the negro to American civilization.

Harold W. Foght, of the United States bureau of education, is now in Denmark studying rural schools with a view of adapting as much as possible of Danish experience to the American country school problem. He is accompanied on the trip by William H. Smith, rural school supervisor of Mississippi, and L. L. Friend, supervisor of the high schools of West Virginia.

Ohio university announces a "quartet of new forces" in the state Normal college. The rural school and the department of agriculture are two of these forces upon which special emphasis is laid, since they represent a definite step in remedying the urgent problem of rural school facilities.

Night schools of scientific agriculture are proving a popular feature with the farmers of western Michigan.

### JOHNSON IS MAN

"WITH" A COUNTRY.

Canada having announced that Mr. John Arthur Johnson of Chicago, formerly heavy weight champion, is off the visiting list, said Johnson now finds himself in a peculiar position. Canada's immigration department will refuse to allow him to cross the boundary line of Canada should he ever attempt to do so.

No doubt England would support Canada and bar him from the shores of the British Isles, and Australia and other British colonies would follow suit.

Then the other countries, not to be outdone by England, may put up the bars. While all this is going on the United States is impressing it upon Mr. Johnson that his presence here in America, right in Chicago, county of Cook, Illinois, is very much desired.

Johnson is "The Man WITH A Country." His predicament is the exact opposite of the hero of Hall's great story, "The Man Without a Country." Johnson ought to get that book and read it. He might feel more content in Chicago. He might as well feel content, for it doesn't seem to be Arthur's fate to do much more traveling in foreign lands.

It is announced from Johnson's quarters in Chicago that Johnson is so fat that he has given up all hope of ever getting into condition again, weighs 300 pounds, that he has given up the idea of boxing Palzer in Paris.

## Top-Notch Bacon Value

There's truth in the saying that mouths water for Beechnut Bacon.

If yours doesn't, perhaps it's because the BEECHNUT flavor and your good taste haven't met. When they do they will be friends for life.

For the past year we have been selling this high quality bacon sliced with our machine, just as you like it, thick, thin or between the two.

Some Beech-Nut bacon comes in large jars with a net weight of 8 1/2 oz. and when you pay 30 or 35 cents for one of those jars it means you are paying a great big price for bacon.

Bacon retailed in jars at 35 cents, costs you 69 1-3c a lb.

We handle only the genuine BEECH-NUT BACON in sealed packages weighing four to five pounds and the price is 35 CENTS for a 16 OZ. POUND—sliced to your liking. Do you know any better way to cut living cost than in buying this bacon?

### PHARMACY DEPARTMENT

Just a Little on Your Face and Hands

Will keep the skin as smooth as velvet. You should apply it morning and night; also before and after exposure to the weather.

ROBERTS' ALMOND CREAM.

If you've never tried it, then there's more real benefit and gratification for you in the use of each bottle than you can now imagine. First of all, it's perfectly pure and free from anything harmful, its not sticky or greasy, and cannot possibly grow hair. Its so easy to use (no massaging)—apply it gently with the fingers, when the skin is to be softened or the complexion improved. It will cleanse the pores, stimulate the circulation and make the skin clear and fresh. It cools and heals chapping and rough skin and relieves the much shaved face. It is absolutely guaranteed by us. Roberts' Almond Cream, 35c.

### INTERVENTION WITH MEXICO.

President Taft has again shown that he is a safe man by his manner of handling the Mexican question. In the face of a persistent demand by many for intervention by the United States government that would most certainly involve us in war, he has handled the matter with sense and discretion. March 4th President Wilson will be sworn in. Instead of embarrassing the incoming administration President Taft has held the question well in hand, while massing troops along the frontier in such manner that should the new administration deem it necessary our forces could be landed in Mexico in very few hours. War has not been proven necessary, as yet, therefore Mr. Taft has so managed affairs that Mr. Wilson might be fully prepared to act at a moments notice when the emergency arises.

Porfirio Diaz succeeded admirably in keeping a semblance of order in Mexico for more than twenty years, but it was beyond his power to do more than support a great horde of people who from long years of penance or dependence, live in a manner that to the average American would mean starvation. It is almost impossible for one raised in this land of plenty to realize the vast difference in the manner of life led by the vast majority of the people of Mexico and of the United States.

The low wages earned by the peons, scarcely more for a days labor than the average American receives per hour, has bred up a race of dependents and beggars, with no interest in life beyond that of mere existence. Porfirio Diaz ruled them with a rod of iron, but he fed them. There are said to be but two classes in Mexico—the very rich and the hopelessly poor. As the older Diaz grew, too old to wield his iron rod personally, others of the aristocrats began to want their share. The good of the millions of very poor had nothing whatever to do with the desire for a change—the outs wanted their turn at the trough. Madero was for a time successful, but he only reaped what he had sown. After a very brief taste of power, while Porfirio Diaz was taking in the sights of Egypt he met his fate in the guise of another Diaz. Madero was overthrown and murdered. It is said that the first Diaz at his hasty departure from the city of Mexico, left \$60,000,000 in the Mexican treasury which it is claimed Madero looted and over the division of the spoils arose the wrangle that resulted in the final overthrow of President Madero.

The Mexican populace is altogether incapable of self-government. Shiftless and poverty stricken, ignorant and revengeful, they still hold the traditions of the war with the United States in 1846 as against every American. Porfirio Diaz with his stern power, protected, so far as he could, Americans and American capital, that together with that of England, has made possible all that the country can show of development and public improvement. With the breaking down of his government Mexico has taken a long step backward, and in case of intervention by this government we can only expect a war that will be participated in by this horde of uneducated Mexicans and Indian half-breeds, that will cost a vast number of lives, bring out all the cruelties and inhumanities of a war with savages, and while victory would no doubt be with our forces in the end, yet what could we gain? Mexico has a population of about 13,000,000. They might, in the course of a hundred years, be assimilated and benefitted—but at what staggering cost to ourselves. Taft does wisely to go slow.

A number of years ago a party of Jacksonville people were in the city of Mexico, with its half million inhabitants and witnessed one method of Porfirio Diaz in his plan of caring for the horde. On one of the main streets, asphalt paved, in the early morning, a gang of a dozen peons, clothed in but a little more than breech cloths, passed first, sprinkling the street from cans little larger than those formerly seen in use in sprinkling our stores, a second gang followed them with brush brooms sweeping the refuse into the gutters in piles, while a third gang followed them with sacks, which they would prop open at each pile scooping the refuse into the sacks with their hands, swinging the sack over their backs and proceeding to the next pile. The government had up-to-date sweepers and sprinklers, but these men must be kept out of mischief, supported and fed—the government must take care of them. It will illustrate the character of a vast number of the inhabitants of that country.

### J HARVEY LONG DIES THIS MORNING

Suffers Paralytic Stroke Wednesday Morning About 10 O'clock—Former Resident of Litchberry.

J. Harvey Long, aged 59 years, died this (Thursday) morning at 2:45 o'clock at his home, 1144 West Lafayette avenue. Mr. Long suffered a stroke of paralysis Wednesday morning about 10 o'clock from which he never recovered.

The deceased was a former resident of Litchberry but had been a resident of Jacksonville for a number of years. He is survived by his wife and the following children: Miss Hannah, Miss Elizabeth, and Miss Anna Long at home; Mrs. Hattie Arnold of Metropolis; Everett at home; Mrs. Amos Coker of Arnold and Walter Long of Litchberry. He is also survived by two brothers, Newton Long of this city and Reuben Long of Midland, Va., and two sisters Mrs. Amanda Whitmer of Bridge-water, Va. and Mrs. B. F. Bryan of Midland, Va.

Arrangements for the funeral have not been made. A more extended obituary will appear later.

### WILL TALK ABOUT THE SITUATION IN MEXICO

Dr. Hancher to Lecture Tonight at Centenary Church on a Theme of Intense Present Interest.

Dr. J. W. Hancher, who chances to be in Jacksonville in connection with the Woman's college campaign has consented to give his lecture on "Mexico" tonight at Centenary church at 7:30 and no admission will be charged.

A group of men yesterday found out that the distinguished visitor was living in Mexico City at the outbreak of the Madero revolution, and is full of information on the Mexican situation, and on account of the general interest in the Mexican war besought him to give his lecture for the benefit of the Jacksonville people.

Dr. Hancher kindly volunteers to give his lecture free and the trustees of Centenary church donate the church, so there will be no admission, nor any collection for any purpose whatever.

Dr. Hancher lived in Mexico for three years and was there at the opening of the revolution. He has traveled extensively in all parts of the republic, having visited twenty-one of the twenty-seven states and nearly all of the larger cities. He has lived in the forests in tents with the Indians for weeks at a time. He has studied the history, the government, and the people of Mexico and has taken a special interest in her great men.

Dr. Hancher's presence in our midst at this time is a piece of rare good fortune, and this lecture will be a rare treat for Jacksonville people. It has been planned by a group of men who know Dr. Hancher and feel we cannot miss the opportunity of hearing him on this theme. Not only will it make clear a matter of public interest which is uppermost in the minds of the people, but will give citizens an opportunity to hear one of the leading educators of our day.

### OPPOSE HARD ROADS.

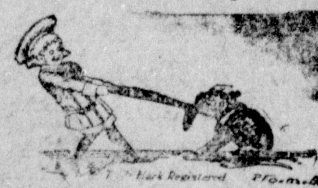

Hard roads and the Homer Tice proposed revision of the road and bridge law were unmercifully flayed at the organization meeting of the Farmers' Protective league at Springfield. The meeting was attended by 100 farmers of Sangamon county. "We don't want hard roads," was the slogan of the farmers, and plans were made to fight to the last ditch, the proposed legislation revising the road and bridge law, which the organization contends is the first step in an effort to force hard roads on the farmer whether he wants them or not.

### Amount Reduced

Passage of the public buildings bill was threatened when a stubborn contest arose after midnight over the proposed \$5,000,000 memorial bridge across the Potomac river, in course of which the senate twice attempted to pass.

Senator Hoke Smith then took the floor and frankly admitted he proposed to filibuster against the appropriation. A compromise eventually was reached by which the amount was to \$1,500,000 and agreed to.

### Postoffice Bill Passed

The postoffice appropriation bill, carrying approximately \$283,000,000, an increase of nearly \$3,000,000 over the house bill, was passed by the senate today. The largest item, \$51,500,000 being authorized by the senate for the rural delivery service. The measure carries an increase of more than \$12,000,000 over the appropriation last year, due to the establishment of the parcel post system.

An amendment proposed by Senator Penrose, of Pennsylvania, providing for the pension of postal employees after they had served 25 years or more in the service was eliminated from the bill on a point of order by Senator Hoke Smith of Georgia.

He contended that it was general legislation and was sustained by the chair.

The provision in the bill as reported to the senate, providing for the election of fourth class postmasters also was stricken out.

## "The Wives of Jamestown"

Based on the historical event when the British government sent a lot of wives to the Jamestown settlers and sold them for 125 pounds of tobacco each. Bryan O'Sullivan, a stalwart Irish lad of humble birth, passed through the estate of his peer and rescues the Lady Geraldine, whose boat has capsized. He retreats with embarrassment but she learns the location of his home and summons him to the castle where she expresses her gratitude. He falls madly in love with her and when another comes to pay court to the lady, O'Sullivan upbraids her for her apparent falseness. The O'Rourke draws his sword but O'Sullivan wrenches it from his hand and breaks it across his knee. He then leaves for America, settling in Jamestown, Va., where he becomes John Pierce. Lady Geraldine learning that she loves him after he has gone. Later Lady Geraldine's castle is besieged by Cromwellians and she is sent to America with a number of other women to be sold as wives, and is married to John Pierce, learning his identity just as she is about to commit suicide.

## PROMINENT MAN TO FACE

### TRIAL COMING WEEK

President Wood of American Woolen Company Must Answer Charge of Planting Dynamite During Lawrence Strike.

Boston, Feb. 26.—The spectacle of the leading representative of one of the largest and wealthiest corporations in this state being tried upon the same charge as the thirty representatives of labor who a short time ago were convicted of conspiracy in Indianapolis, will be presented when William M. Wood, president of the American Woolen company, and one of the leading textile magnates of the world, together with several alleged accomplices, will be tried before a jury in the superior criminal court of Suffolk county upon the charge of complicity in the alleged "planting" of dynamite during the strike of the mill hands at Lawrence, Mass., last spring. Owing to the great wealth and prominent position of President Wood and the serious nature of the charges against him and the other defendants the case which is to begin next week and will probably last a fortnight or more, is attracting country wide attention, particularly in labor circles, where the outcome of the trial is awaited with intense interest.

The commonwealth which, at the trial, will be represented by District Attorney Joseph C. Pelletier, charges and will try to prove that Wood and the other defendants conspired to place explosives in such a manner in the disturbed community as to discredit the striking mill operatives, and to turn public sentiment against them. The trial which has many unusual features, promises to be highly sensational.

The arrest of John J. Breen, a member of the Lawrence school board, upon the charge of having planted dynamite, was the first sensation which developed in the conspiracy case during the strike at Lawrence. Breen was found guilty and after a quick trial was sentenced to pay a fine of \$500. It was then suspected that others were concerned in the matter, but it was seven months later, long after the strike had been ended, that the grand jury found indictments against Wood and several others, including Fred E. Atteaux, a dyer; Dennis J. Collins, a Cambridge dog fancier; William H. Rice, an East Milton welder; and Ernest W. Pitman, head of the E. W. Pitman company, one of the largest builders of textile mills in New England, committed suicide at his home in Andover a day before he was to sail with his family for Europe. It was rumored at the time that he had inadvertently given damaging evidence in the conspiracy case and had taken his life for fear of becoming entangled in the case. Wood and the other defendants were arrested on August 30 of last year and released under heavy bonds.

Naturally enough the general interest is centered upon William M. Wood, the principal defendant and alleged leader of the conspiracy. His life history is unusually interesting and his rise from poverty to wealth and high position presents the elements of a remarkable romance. In the fall of 1860 Captain Henry Pease, a whaler of Edgartown, Martha's Vineyard, brought with him to that town a poor Portuguese from Fayal, one of the Azores, who had shipped as cook on the captain's vessel. The man's name was Jacintho, but he changed it to Wood, in honor of a man who had befriended him and had supplied him with a fisherman's outfit. William Jacintho Wood soon married and on April 5, 1861, their eldest child, William M. Wood, was born. The boy was bright and his father tried his best to give him an

education. Jacintho did not thrive in the raw New England climate and after he had worked for a few years as fisherman, cobbler and steward on one of the sound boats, he died at New Bedford of tuberculosis.

William M. Wood was 11 years old when his father died and he had to quit school and go to work. For three years he worked in the office of the Wamsutta mills and displayed great ability. Then he worked for three years in the mechanical department of the mills and acquired a thorough knowledge of the milling work. His next position was that of bookkeeper in J. A. Beauvais' bank. After a few years he became assistant manager of some woolen mills in Fall River. When Dr. Frederick Ayer, the patent medicine manufacturer, was obliged to take over the "Washington mill in Lawrence, because that institution could not repay certain loans, Wood was made assistant manager of that mill. He also became acquainted with Dr. Ayer's family and married the doctor's only daughter. Backed by his father-in-law's wealth William M. Wood soon expanded his activity and with remarkable business ability succeeded in organizing the American Woolen company upon a substantial basis and making it a well paying corporation. His salary as president of the company alone is said to be \$100,000 a year and his other interests in mills and other industrial and financial institutions are estimated to be in the millions.

Mrs. S. S. S. Van Buren St., Kingston N. Y., (full name furnished on application), had such decided success from using Foley's Honey and Tar Compound that she shares her good fortune with others. She writes: "Foley's Honey and Tar Compound brought my voice back to me during a severe case of bronchitis and laryngitis. Oh, how many people I have recommended it to." City Drug Store—J. A. Obermeyer.

### CHAMPION OF BOXING.

Rev. Frank C. Bruner, a Methodist Episcopal pastor of Chicago, caused a stir at a meeting of Methodist ministers when he came out a champion of boxing. He dissented when resolutions were offered condemning two boxing bills now before the Illinois legislature. "I believe boxing is an art in which every man should take pride," said Mr. Bruner. "I cannot agree that it is demoralizing. My father was the best boxer in this country. Often I have seen him and my brother put on the gloves and mix it in a lively fashion."

"I did not have the gloves on myself, but I did not see anything demoralizing in the bout between my father and my brother. I am not going to vote for the resolutions." The resolutions were adopted.

## A LETTER FROM RUSSIA.

Writing to the Journal from Odessa, Russia under date of Feb. 9th, John A. Groves mentions that he has just received a Journal giving the facts of the death of his mother, Mrs. Mary A. Groves. He sends the following lines as expressing his feeling:

Mother is dead, how reverently the head,  
And softly the tread, beside her death bed.

In childhood she blessed me,  
And sweetly caressed me;

She taught me to pray,  
God's will every day.

She taught me not to take God's name in vain,  
To do such a thing was a very great shame;

She taught me to read  
God's holy law to heed;

She taught me to pray,  
The Lord's prayer to say.

My own mother was called away,  
And she came with me to stay,  
To share in my sorrows and play.

I, in a foreign land,  
By her grave I cannot stand,  
And shed a sympathizing tear.

Burdens and sorrows will soon be over here  
And then to meet her in Heaven above

## STEER SHEEP AND SWINE FARM.

Farming Methods that Make the Small Farm a Paying Investment.

In a recent issue of the Country Gentleman an article of a great deal of interest to the small tract farmer is found in the story of Mr. Berg of Northfield, Minn., who tells his experiences and methods of work on his 65 acre farm near Northfield.

Mr. Berg is solely a stock feeder, attempting to make the land yield him enough grain to feed his stock and in return the stock is each year making the land more fertile and his crops of greater yield.

When some years ago Mr. Berg purchased his present farm the soil was of a sandy nature and the best that he could do the first few years was to raise about 40 bushels of corn to the acre. The stock are all fed on concrete floors, so that none of the fertilizer is wasted and each year about 800 tons of manure fertilizer are distributed over the acreage in cultivation. The land is now yielding about 80 bushels to the acre and about 20 bushels of silage is produced per acre.

In the past Mr. Berg has not been so much of a stock raiser as a stock buyer and feeder. He usually buys in the fall along in October and usually averages an increase in weight of steers of 300 pounds and sells when the market is right along in March or April.

About 1,400 animals are fattened on the farm each year. This includes about 75 head of steers, from 200 to 300 hogs, and from 1,200 to 2,000 sheep.

The farm is easily handled by one or two men except during the rush periods of the year. Last year about \$92 per acre was said to be the profit made by this farm. Mr. Berg in estimating his profit in these figures, however, neglected to allow any interest on money invested or for the value of his time and work. But at that \$5,000 a year made off a 65 acre tract it not to be overlooked.

Mr. Berg is an extensive farmer in every sense of the word. He is making every parcel of the land give its share in the productive value of the whole. He is a great believer in the use of cement for feeding floors and has several acres now used for that purpose. Cement is also used in the construction of his silos, which by the way are not the usual round, cone shaped affairs, but are built square and in a long row.

Every labor device known to agriculture is in use on the farm. Self feeding hoppers are in use wherever possible and it is in this way that the farm is so easily handled and managed without the aid of any hired men. Mr. Berg and his son alone often attending to every thing except, as before stated, during the rush season.

Of late years Mr. Berg has commenced raising his own hogs and this will doubtless prove more profitable than his former policy has been of buying fall pigs averaging about 150 and selling them in the spring at an average increase in weight of 150. Credit certainly is due Berg's method of feeding hogs to make his spring hogs average 300 at the market. The hogs are allowed to follow the steers in the fall of the year. During the winter months the fed is gradually increased on all stock and silage and corn is fed liberally toward the end of the winter and during the first months of the year.

Mr. Berg in buying his feeders in the fall also uses great judgment in his selection of the stock to be fattened. He claims there is more money to be made in spending a little more on the purchase of a good animal than in buying a cheaper animal that will not fatten nearly so much and will only be a grain consumer and not a meat producer.

It would certainly be well if Mr. Berg's methods could be followed by

farmers in other parts of the country and farming of small tracts of land be made a more profitable venture than it is with some today.

## DR. PRICE'S Cream Baking Powder

Dr. Price's Cream Baking Powder is free from alum and lime phosphates. Made from grape Cream of tartar and absolutely pure. Its use is a safeguard to health, for it actually aids digestion, and relieves from all anxiety as to the wholesomeness of the food.

On the other hand each attempted imposition of an alum baking powder upon the consumer is a covert attack upon the health of the family. Of course, no grocer would knowingly sell injurious food to his customers; but he has himself been deceived as to the true character of the cheap powders by their manufacturers.

Forewarned, and solicitous for the health of her family, the housewife will be influenced to a constant watchfulness and a stubborn resistance against the danger.

Baking Powders sold at a lower price than Dr. Price's are almost invariably made from alum, and therefore inferior, and prejudicial to health.

## Clears Skin of Worst Eruptions

Remarkable Action of a Remedy That Drives Every Speck of Poison From Body.

There is a strange, mysterious power in a remarkable blood medicine that finds its way through the circulation by what is known as Divine selection. The remedy is Swift's Sure Specific, or S. S. S. Science cannot explain just why certain elements in the blood feed the bones, others nourish the hair roots, and so on. And it is this same mysterious action of S. S. S. that attacks all diseased spots, drives away all germs, heals all sores and suppurates the activity of disease germs with the powerful healing action of leucocytes. Remarkable testimonials have been written that prove beyond question there is no blood disease but what can be cured by S. S. S. And in all those cases that were treated with mercury, iodides, arsenic, copper and other minerals with no permanent effect, the most astonishing recoveries have been made by S. S. S.

There is not a blood taint of any nature that can remain in a system fortified by this most wonderful remedy, for it is absolutely pure and contains only those elements that the blood naturally assimilates, and which the tissues gratefully accept. It agrees with the most delicate stomach, even in those cases where the use of strong drugs has so weakened the digestive system that medicine cannot be given. Get a \$1.00 bottle of S. S. S. at any drug store and thus be assured of a complete cure of any eruptive blood disease. If your case is peculiar and you desire special advice write to The Swift Specific Co., Medical Dept., 107 Swift Bldg., Atlanta, Ga.

## WOULD ELIMINATE CLASS SPEAKERS

SENORS OF J. H. S. DESIRE NEW PLAN COMMENCEMENT

Will Ask Board of Education For Outside Speaker—Baccalaureate to Be Held At Grace Church—Second Basketball Team Goe to Arenzville.

The members of the senior class of the High school held a business meeting Wednesday. Several questions came up before the class and the members indulged in some lively discussions. One of the questions was whether the class should wear caps and gowns at the commencement time. The vote was against the proposition. It was also decided that there should be no member of the class appear on the commencement program, as has been the custom for several years in the past. Instead some prominent speaker from outside the city, will be invited to give an address.

The class voted to invite Rev. J. W. Miller to deliver the Baccalaureate address and the exercises to be held in Grace Methodist church.

The seniors are working hard on their play "The Rose of Eden," which will be given the 6th and 7th of March.

The class has been working diligently on senior annual better known as the "Crimson J." and they expect to have the book out by the 15th of April. Heretofore the production has been given out in June.

The action the class took in regard to eliminating the members from appearing on the commencement program and the securing of an outside speaker will have to receive the sanction of the Board of Education before any action is taken. The class vote was 42 for and 12 against the proposition.

**Officials For Tournament.**  
The officials for the basketball tournament are W. A. Ryan of Alton and H. A. Ryan of the local Y. M. C. A. Mr. Ryan is the star drop kicker of the Sturteff football team and is a splendid official for the meet. It is expected that all the entries will be in by day and the students of the High school expect to extend every courtesy to their guests.

**Second Team to Arenzville.**  
The second basketball team of the High school expects to go to Arenzville this evening to meet the five of the High school of that place. The teams met earlier in the season when J. H. S. was victor by a score of 24 to 21.

The following will be the probable lineup: Center, Richard Reynolds; Forwards: Chipchase and Ferris; guards, Smith and Strawn; subguards, Wells and Coons.

## Want to Feel Young?

It's Olive Tablets For You!

Beware of the habit of constipation. It develops from just a few constipated days, especially in old people, unless you take yourself in hand.

Coax the jaded bowel muscles back to normal action with Dr. Edwards' Olive Tablets, the substitute for calomel. Don't force them to unnatural action with severe medicines or by merely flushing out the intestines with nasty, sickening cathartics.

Dr. Edwards believes in gentleness, persistency and nature's assistance.

Dr. Edwards' Olive Tablets oil the bowels; their action is gentle, yet positive. There is never any pain or griping when Olive Tablets are used. Just the kind of treatment old persons should have.

Take Olive Tablets mixed with olive oil and have no trouble with your bowels or stomach.

"Every little Olive Tablet has a movement all its own." 10c and 25c per box.

The Olive Tablet Co., Columbus, Ohio.

**Chronic Constipation Cured.**

"I had been troubled with chronic constipation for two years and tried all the best physicians in Bristol, Tenn., and they could do nothing for me. Two packages of Chamberlain's Tablets cured me," writes Thos. E. Williams, Middleboro, Ky. For sale by all dealers.

**MOVED INTO NEW HOME.**

Mr. and Mrs. Fred Meggison, who were married the first of the year, have moved into their new home west of the city.

**Little Girl Cured of an Awful Cold.**

"Two years ago our little girl had an awful cold that settled on her lungs," says Mrs. Wm. Galbraith, Hamburg, N. Y. "We were greatly worried about her condition. She had a persistent croupy cough that clung to her despite all our treatment, until I got a bottle of Chamberlain's Cough Remedy. This preparation relieved that dreadful cough and choking and effected a positive cure in the course of a few days' time." For sale by all dealers.

**GRONNA-STUTZ WEDDING.**

Washington, Feb. 26.—Congressional society was interested today in the wedding of Miss Marguerite Katherine Stutz, daughter of Dr. and Mrs. Stutz of this city, and James D. Gronna, son of Senator and Mrs. A. J. Gronna of North Dakota.

**A Good Cough Medicine for Children.**

Convincing proof of the rare curative properties of Chamberlain's Cough Remedy came from Mrs. Mary Fawcett of Grinnell, Iowa, who says: "Chamberlain's Cough Remedy helped my little boy a great deal when he had whooping cough. It is a good medicine." For sale by all dealers.

## CHATS WITH GREAT MEN OF THE CIVIL WAR

By Mrs. Gen. Pickett.

Copyright, 1913, by The Press Publishing Co. (The New York Evening World.)

ALEXANDER H. STEPHENS

Coming up to greet us at our wedding reception was a man of whom Abraham Lincoln had written fifteen years before:

"I take up my pen to tell you that Mr. Stephens of Georgia, a little, slim, pale faced consumptive man, has just concluded the best speech of an hour's length I ever heard. My old, withered, dry eyes are full of tears yet."

The time had come which had been foretold by Mr. Stephens in 1847:

"If Mexico, 'the forbidden fruit,' is to be seized at every hazard, I very much fear that those who control public affairs, in their eager pursuit after the unenviable distinction of despoiling a neighboring republic, will have the less enviable glory of looking back upon the shattered and broken fragments of their own confederacy. And instead of 'reveling in the halls of Montezuma,' of gloating over the ruins of the ancient cities of the Aztecs, they may be compelled to turn and behold in their rear another and wider prospect of desolation, carnage and blood."

He was now vice president of the confederacy. After congratulations he turned to the general with the query:

"Well, have you heard from Old Abe since the war began?"

"Yes, I have heard twice."

"What did he say?"

"His latest message was sent through Mr. Browning. He said I was to go back to my Bible and read the 'Prodigal Son' and he would do his part and have the fatted calf ready when I was ready to come back."

Years afterward, when my worldly goods had vanished by the failure and defalcation of those in whose charge they had been placed, and I was in a department office in Washington, Mr. Stephens was in congress. When he learned of my position, he said:

"Mad-d-dam!"—he always pronounced the word with an exaggerated number of d's—I am very sorry to hear this; very sorry. You would better go back to Virginia and raise bees and make honey. I don't believe General Pickett would approve of your coming to Washington to work."

"Nor would he approve of my being stuck up with honey and stung by bees, either Mr. Stephens," I replied.

"It is safer by far and less painful to be stung by bees than hornets, and if you are not careful you may be stung by hornets here."

I told him that I should treat the hornets so that they would not sting me, and did not expect to be in office after my son had finished his course in the military institute.

"What will you do then?" he asked.

"My son will take care of me while I write a book about my husband's divison."

"Write a book! Oh, my God!" he cried in dismay. "Go and read Job, Mad-d-dam!"

Some southern friends coming up, the conversation turned upon Mr. Davis and his cabinet.

"It seems a pity," said one, "that Mr. Davis was not allowed to follow the bent of his inclination and command the army and let Mr. Toombs be president."

"Toombs' president. Well, we should have had a devil of a time. But it wouldn't have lasted more than three days. He would have had no mercy, taken no prisoners, given no quarter. Toombs, you know, was never reconstructed, never asked pardon and never was forgiven."

"I don't know why, but you always make me think of Mr. Toombs," I said.

"Toombs? Toombs—why he and I were as unlike as if one had come from Hades and the other from Greenland's icy mountains, instead of both coming from the good old state of Georgia, of which we are very proud. Our views on every other question on earth, from secession up, were diametrically opposed, even as to his opinion of my humble self. For he saw in me great presidential timber, and on February 4, 1861, in Montgomery, Ala., did the honor of suggesting me as president of the confederate states."

**FAMOUS FOOT BALL PLAYERS.**

Walter Camp, the football authority of Yale, has selected twenty football celebrities whose names have been illustrious in the history of the game. These men he has classified as follows: Whiting of Harvard and Baker of Yale, pioneers in the game; Cuyler of Princeton and Pierce of West Point, legislative saviors; Dennis of Cornell, Hall of Dartmouth, Daboll of Annapolis and Bell of Pennsylvania, officers and rule makers; Babbitt of Haverford, originator of board of officials; Woodruff of Pennsylvania, Yost of Michigan, Williams of Minnesota, Stagg of Chicago and Shevlin of Yale, coaching missionaries; Dudley of Minnesota, developer in the south; O'Dea of Wisconsin, Eckersall of Chicago, and Daly of Harvard and West Point, developers in individual departments; Cumcock of Harvard and Hare of Pennsylvania, captains altering conditions.

**C. R. SHEPHERD.**

will hold a public sale of livestock, grain and farm implements at his residence 1 1/2 miles north of Woodson on Friday March 7, 1913.

"I wonder what would have been the result, Mr. Stephens," I said "If you had taken first place and Mr. Davis second?"

"Do you remember, Mad-d-dam, the wonder that swelled your young heart to bursting when as a little child you were first told in awesome tone by one with bulging eyes, 'Suppose the sky should fall?' Then when you could not bear the agony of such a calamitous supposition another second the tragic voice punctured the taut, overstrained bag of suggestion with the answer, 'It would catch flies.' That's all, Mad-d-dam."

"I heard, Mr. Stephens," I said, "that when General Upton sent an armed force to have you arrested after the surrender of the confederacy you said to the officers, 'Gentlemen,' I am greatly perturbed that your commanding general should not only have put his government to this unnecessary expense, but should have subjected you to so disagreeable a duty, for I assure you really that if I had had the faintest intimation or conception that my presence was desired I should have done myself the honor to go by quickest route to Atlanta to pay my respects. But perhaps your commanding officer, General Upton, is not familiar with the amenities—"

"No, Mad-d-dam," Mr. Stephens interrupted. "I did not use the word 'amenities,' nor that expression 'greatly perturbed.' They have been slanderously added. My words, I believe, Mad-d-dam, were a little more emphatic. But as well as I now remember, you have in the main repeated the interview correctly."

One day when I was in the capitol with some friends, a one armed confederate soldier, the silver tongued orator of the south, Col. Charles E. Hooker of Mississippi came forward to greet us. Just then seeing Mr. Stephens, helpless and paralytic in body, but brilliant as to mind, being carried into the hall, he said in his courtly Johnsonian manner:

"Come, Madam, permit me to present my most honored and esteemed friend, Mr. Alexander H. Stephens, to you and your charming friends."

Before we could assure him that we knew Mr. Stephens the colonel said:

"Mr. Stephens, may I have the double and distinguished honor of presenting you to Mrs. Pickett, the widow of our great illustrious commander, Gen. George E. Pickett, and making her acquainted with one of our most gifted and brilliant statesmen?"

Mr. Stephens acknowledged the introduction and smilingly replied: "Thank you, Col. Hooker, I know Mrs. Pickett. She took her first ride in a setting egg basket and I am taking my last ride in one. Now, I knew her before she was married, was at her wedding reception in Richmond and knew Mr. Corbell, her father, before her. He was, as I was, a great union man, and he told me that the only serious quarrel he ever had with his wife was about secession, in connection with name of his youngest son, called for an uncle, who became a rabid secessionist."

"The dispute resulted in the changing of the boy's name. And I learn that to this day he calls his boy by one name and his wife calls him by another. Your son," he said, turning to me, "looks like both you and your husband, Mad-d-dam. Ah, Mad-d-dam, the general was as mild and gentle of manner as he was fearless and earnest of soul. I have heard that President Lincoln was very proud of having been instrumental in the general's going to West Point."

"You know, Mr. Stephens, when you were of the peace commission and went to hold a conference with Mr. Lincoln at Fortress Monroe there was a consultation in camp that night of the officers at our headquarters and they were in hopes that you would end the war. And afterward, when they learned the result of the conference, for several days the men were jubilant because they felt sure that you all had something up your sleeve, foreign intervention, or—"

"Yes, a little Joker," replied Mr. Stephens.

## NOTICE To Farmers and Stock Raisers

We are now manufacturing under State License, the best Brand of hog food on market known as "SURE FATTEN HOG FOOD". It is far superior to any Brand of Hog food on the market to day. It is guaranteed under the Pure Food and Drugs Act, June 30th, 1906, Serial No. 47,673. Guaranteed analysis as follows:

Crude Fat . . . . .10.00 to 14 per cent  
Crude Protein . . . . .52.50 to 60 per cent  
Crude Fibre . . . . .1.00 to 3 per cent  
Phosphate . . . . .10.00 to 12 per cent

## What Is "Sure Fatten Hog Food"

It is a dark colored granular meal, made from meat residues, and it supplies the protein and phosphates necessary for compounding a balanced ration in most economical and palatable form.

It contains phosphates in proper proportion to insure strength of bone and frame work. In the corn belt bone development is a matter of serious consideration.

It is not a substitute for corn, but a small quantity fed in connection with corn or other grains gives a balanced ration.

It is the most economical source of digestible protein known, containing twice as much protein as oil meal and five times as much as middlings, shorts, shipstuf, or alfalfa meal.

TANKAGE recommended by all leading experiment stations.

It is packed in one-hundred-pound burlap sack, plainly marked "SURE FATTEN HOG FOOD," analysis as above. It is the ideal feed to balance rations.

**What "Sure Fatten Hog Food" Tankage Does.**

It develops bone and muscle in young pigs and makes them grow. It matures a hog for market in two and three months quicker than corn alone, thereby, saving one third of the feed bill, one third of the labor, one third of the risk, increasing profits one third.

It grows better proportioned hogs, more meat, a d more fat, hence market-topper hogs. SURE FATTEN HOG FOOD TANKAGE fed hogs ship well with small shrink.

While in nowise a medicine, it so fortifies and strengthens the system against attacks of disease germs that SURE FATTEN HOG FOOD TANKAGE fed hogs are universally healthy hogs.

**Manufactured by the Jacksonville Reduction Co., Jacksonville, Ill.**

## Women of Middle Age

From 40 to 50 Woman's Critical Period.

Such warning symptoms as sense of suffocation, hot flashes, severe headaches, melancholia, dread of impending evil, palpitation of the heart, irregularity, constipation and dizziness are promptly treated by intelligent women who are approaching the period of life.

This is the most critical period of woman's life and she who neglects the care of her health at this time invites incurable disease and pain. Why not be guided by the experience of others and take Lydia E. Pinkham's Vegetable Compound? It is an indisputable fact that this grand old remedy has helped thousands of women to pass through this trying period with comfort and safety. Thousands of genuine and honest testimonials support this fact.

**From Mrs. HENRY HEAVILIN, Cadiz, Ohio.**

Fort Worth, Texas.—"I have taken Lydia E. Pinkham's Vegetable Compound and derived great benefit from its use. It carried me safely through the Change of Life when I was in bad health. I had that all gone feeling most of the time, and headache constantly, I was very nervous and the hot flashes were very bad. I had tried other remedies and doctors, but did not improve until I began taking Lydia E. Pinkham's Vegetable Compound. It has now been some time since I took the Compound and I have had no return of my old complaints. I always praise your remedies to weak women."—Mrs. HENRY HEAVILIN, R. F. D. No. 5, Cadiz, Ohio.

**From Mrs. EDWARD B. HILBERT, Fleetwood, Pa.**

Fleetwood, Pa.—"During the Change of Life I was hardly able to be around at all. I always had a headache and I was so dizzy and nervous that I had no rest at night. The flashes of heat were so bad sometimes that I did not know what to do.

"One day a friend advised me to take Lydia E. Pinkham's Vegetable Compound and it made me a strong, well woman. I am very thankful that I followed my friend's advice, and I shall recommend it as long as I live. Before I took the Compound I was always sickly and now I have not had medicine from a doctor for years. You may publish my letter."—Mrs. EDWARD B. HILBERT, Fleetwood, Pa.

**From Mrs. F. P. MULLENDORE, Munford, Ala.**

Munford, Ala.—"I was so weak and nervous while passing through the Change of Life that I could hardly live. My husband had to nail rubber on all the gates for I could not stand to have a gate slam. I also had backache and a fullness in my stomach. I noticed that Lydia E. Pinkham's Vegetable Compound was advertised for such cases and I sent and got a bottle. It did me so much good that I kept on taking it and found it to be all you claim. I recommend it to all women afflicted as I was."—Mrs. F. P. MULLENDORE, Munford, Ala.

**Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.**

(By Associated Press)  
New York, Feb. 26.—The steady  
decline in stocks was halted today  
and the market made material pro-  
gress upward. It was one of the  
periodic upturns which have occurred  
during the downward movement of  
the last few weeks, marking a natu-  
ral reaction and was symptomatic  
of no essential change in speculative  
conditions. There was a limited  
amount of buying for the long ac-  
count, but the chief demand seemed  
to come from the short interest.  
Trading grew quiet on the higher  
level.

Europe lent a hand in pulling up  
the market. Indications that the  
Harriman dissolution plan would not  
be upset by the objections of the  
California railroad commission also  
exercised a strengthening influence.

One of the most encouraging fea-  
tures of the market from the stand-  
point of the bull trader was the ces-  
sation of liquidation of specialties  
and inactive railroad stocks, such  
as has had an unsettling effect re-  
cently. Many of these stocks made  
large gains today. Canadian common  
and preferred moved up rapidly on  
the belief that the directors at to-  
morrow's meeting might take action  
toward paying off the accumulated  
dividend on the preferred. Central  
leather's favorable annual report  
was reflected in the strength of the  
shares. The Hill stocks were under  
pressure for a time. Northern Pacific  
touching a new low price for the  
movement, but later rallying.

Additional railroad statements for  
January were received and the re-  
cord of increased earnings among the  
larger lines is unbroken. Union Pa-  
cific reported \$460,000 in net and  
Southern Railway \$118,000.

# JUDGE CREIGHTON TO TAKE MONTH'S VACATION

Will Enjoy Rest After Twenty-Eight Years Unceasing Toil.

According to an announcement made in Springfield Wednesday Judge James A. Creighton will leave Springfield this morning for Washington to be present at the inauguration of President Wilson and will thus begin the first vacation he has allowed himself in twenty-eight years. Sangamon county circuit court will stand adjourned until the first Monday in April, except that Judge Robert B. Shirley of Carlinville, will hear motions for a few minutes next Monday and on Monday, March 10.

Judge Creighton had intended deferring the announcement of his vacation until Thursday afternoon, but Attorney C. S. Gibbs appeared in court with a motion duly arranged in legal form and couched in legal phrase, suggesting that the court take a vacation until March 10 and that he attend the inaugural ceremonies.

When the motion had been read Judge Creighton ruled that it had no place on the court docket but directed that it be filed in the "archives of the court." He then announced that the motion had been granted, since he already had decided to take a vacation, but that he would continue his period of rest until April instead of returning to Springfield March 10.

"I can't witness all the ceremonies, see all of Washington and see that the new administration starts off well in ten days," he observed with a smile. "I feel a personal interest in the opening of the first Democratic administration in twenty years and I intend to stay right around headquarters until it is well established."

In commenting on the judges announcement the Springfield News said:

"The judge seemed to suffer from a slight fear that he might be indulging himself unduly in taking a rest after nearly thirty years of unremitting work. He explained that the only occasions that had caused him to be absent from the bench in the course of a term in that length of time were the deaths of relatives."

"I have never adjourned court a second for my own pleasure," he said, "nor on account of my own sickness or that of any member of my family. I never have opened court a minute late but two or three times since I have been on the bench."

## REACHING THE SPOT

It Has Been Done, So Scores of Jacksonville Citizens Say.

To get rid of an aching back, The sharp twinges, The tired-out feelings, You must reach the spot—get at the cause.

In many cases 'tis the kidneys. Doan's Kidney Pills are for weak kidneys.

Jacksonville citizens testify. W. C. Osborne, 455 S. Clay street, Jacksonville, Ill., says: "Doan's Kidney Pills permanently cured me of kidney trouble when I used them in 1909. About two years I suffered from rheumatic pains in my back. I was lame and my kidneys did not do their work as they should. I heard other people speak highly of Doan's Kidney Pills and deciding to try them, I got a supply at Armstrong's Drug Store. In several weeks they cured me. I have had no further trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## MORGAN COUNTY IN YEARS GONE BY

OLD SETTLERS ASSOCIATION RE-UNIONS ARE RECALLED.

Eighth Gathering Was Held in 1876—Historical Address By Elder D. Pat Henderson a Valuable Document.

In a recent issue an extract was given from a report of the eighth annual picnic of the Old Settlers Association of Morgan and Cass counties printed in the Journal 1876. The second installment of the report follows giving part of the historical address of Elder D. Pat Henderson.

The weather Thursday morning seemed anything but propitious for our door gatherings. Nevertheless many people waited anxiously for the weather to improve, that they might have a chance to enjoy the long talked of Old Settlers Picnic. Old Pat's in obedience to their desire cleared away the clouds from his sorrowful visage, and when one o'clock came quite a number of people had congregated at the Farmer's depot, among whom we noticed: John Robertson, M. P. Ayers, D. Pat Henderson, C. W. McLain, V. E. Higgins, Rev. John W. Allen, Samuel French and many others too numerous to mention.

The picnic grounds being reached the exercises were commenced at once, as the weather was again threatening. Below will be seen the programme of the afternoon's exercises.

Band. Prayer—by Chaplain, J. Goodrick. Election of officers for the ensuing year.

President—E. T. Miller. Vice-president—William Richardson, Charles Robertson, Samuel Rannels.

Secretary—T. Chamberlain. Treasurer—John Robertson. Chaplain—William T. Rutledge. Marshal—Charles Sample.

Finance Committee—Brazill Dav- enport, John Leach, Z. W. Gatton.

Executive Committee—Hiram Reeve, William Lindsey, Joseph Morton, Samuel French and Elliott Stevenson.

Address by Mr. Larkin Scott, who came here in 1820. Reminiscences of early life.

Address by C. P. Johnson—Calico and Calash Age; quite humorous. Samuel French, Rev. J. H. Dickens and Elder John W. Allen, made short speeches.

Historical Address Mr. President, Ladies and Gentlemen:

My heart is filled with many varied emotions to day, some excite pleasure, others pain. The living happy smiling faces here to day give me joy.

The memory of the absent who quietly sleep in their graves fills my heart with sadness and sorrow. I almost wish another better qualified filled my place on this occasion. I cannot, I fear, meet public expectations and I regret it. The time allotted me is too short to mingle many reflections with the facts of history, I must introduce, I fear then that you may weary with this simple history of your country and county seat. Exercise patience, and I will try to make such selection from the living as well as the dead as will be of interest to you and the future historian who shall gather facts utilize them and transmit a faithful history to your posterity.

In your past reunion, you have collected and placed upon your records much that is valuable. The decaying past, without this would soon obliterate what to the future historian would be of incalculable value.

I would dearly love to mention the names of the many of the pioneers, with whom I had the pleasure of a personal and intimate acquaintance more than forty-five years ago, but I cannot. My time and your patience forbid it. Besides, others are announced to address you and I must not rob them of their time and you the pleasure of hearing them.

To make a just selection of the facts, from among the living and the dead of whom I may speak is embarrassing. My judgment may be at fault and many of the most interesting chapters in our history may be omitted, while others of less value, may be given. Bear with me and let your fruitful minds and good taste supply all deficiencies.

This is a year long anticipated and will be long remembered. The whole nation is now celebrating the one hundredth anniversary of its existence. The spirit of patriotism is burning brightly on the altar of liberty, in every valley, on every hill top, in every village, town and more than forty millions of free-men rejoice in the liberty bequeathed by our ancestors, who through toil, blood and tears fought for and gained our rich and glorious inheritance. We have indeed a land broad enough, strong enough, rich enough and with honest, faithful hearts enough to defend it from all enemies from without or from within.

From this pleasing train of thought we shall now commence a short historic sketch of Morgan county to preserve as much of it as we can from the decaying past. I am greatly indebted to the patient researches and facile pens of some early pioneers for much that I shall present today.

Lands at \$1.25 Per Acre. The congress of the United States on the 29th day of April, 1816 established a land office at Edwardsville, and on the 8th of May, 1822 passed an act establishing a land office at Springfield. The act of congress reducing the price of public lands from \$2.00 to \$1.25 an acre was passed on the 24th day of April, 1850 and took effect July 1st thereafter. Very little land if any had been sold in Morgan county before this time.

In a book entitled "The Annals of

the West," we learn there were in 1823 in Morgan county about 72 families.

In February, 1823 the legislature passed an act authorizing the people to vote at the next election for and against calling a convention to adopt a new constitution, the object being to create the institution of slavery. The election was held in August, 1824. A society was organized in Morgan county against the call, and of the 140 members of this society, so far as is known, Wm. C. Vary, William S. Jourdan, Lazarus Reeves, Isaac B. Reeves, John Angelow, Olney Tichnor, Alfred Mills and Richard Mathews, Jr., are the only survivors. Honor to the memory of their colleagues. And all honor to the living who rejoice with us today in being citizens of a country that is free—the asylum of all the oppressed.

Hon. John Reynolds, one of the judges of the supreme court under the constitution of 1818, held circuit court in Morgan county from its organization, until the spring of 1826, when John York Sawyer, circuit judge, elected in 1825, came to the bench. He held the court two years, when Hon. Samuel D. Lockwood, judge of the supreme court, came on the bench and held the courts until the adoption of the new constitution in 1847, except from 1835 to 1841, during which time the court was held by several circuit judges.

Census Figures. The population of the state, as shown by the census of 1825, was 72,817. It was not known what the population of Morgan county was at this time, but in 1830, it was 12,709. In 1835, it was 19,158. Sangamon county at this time was 17,467, a difference in favor of Morgan of 1,691.

The first death in Morgan county was Isaac Fort Roe.

The first death in Jacksonville was David Ditson.

The first marriage in Jacksonville was John Smith and Deborah Thornton.

The first male child born in Jacksonville was Alexander W. Carson.

The first sermon preached in Morgan county was by the Rev. William Basey, a minister of the Methodist Episcopal church. The Methodists and Baptists held meetings at various places in the county in 1821. The house of James Deaton was one of the places where the Methodists held their worship.

The first Sunday school in the county was organized in Jersey Prairie, at or near Princeton, by a Mr. Leonard, whose widow is still living, having married a gentleman by the name of Rucker.

The Baptists held meetings for worship at the house of Maj. Peter Conover, in Jersey Prairie, and in one or two more places in that part of the county. All of these meetings were held in private houses after the apostolic example, there being no public houses erected for that purpose.

(To Be Continued.)

F. E. Walling, a farmer living near Yukon, Mo., strongly recommends Foley's Honey and Tar Compound and says: "I have been advised by my family doctor to use Foley's Honey and Tar Compound for my children when there was a cough medicine needed. It always gives the best of satisfaction and I recommend it to others." City Drug Store—J. A. Obermeyer.

PUBLIC SALE. The undersigned will sell at auction a car load, more or less of Jersey and Grado cows, ranging in age from 2 to 5 years, 90 per cent fresh at Ogles Livery barn on North Main street, Jacksonville, Illinois, on Saturday, March 8, rain or shine. Cox and Crum, auctioneer, C. L. Clark.

### AN OPERETTA OF EXQUISITE MELODY.

"The Spring Maid", that charming opera of fascinating melodies, and laughing situations, to which the entire nation has paid tribute in over 1,000 performances, is announced for a one night engagement at the Grand on Wednesday, March 5.

This opera furnishes a picture of sparkling life and beauty that irresistibly charms and amuses. Scenes

from gay Carlsbad with the mischief making Spring Girls and the doughty officers, together with the merry humor of a strolling band of players, are shown in each act. Romance and melody are intertwined in the story of the spring girl in a manner so interesting as to hold the sure attention of the hearers through the entire performance. The enduring quality of "The Spring Maid" is due as much to its pretty plot as to its melodies.

### SIX THOUSAND DOLLARS TO BE RAISED IN THREE DAYS

Workers For Woman's College Fund Have Big Task Before Them Before Saturday at Midnight.

Three days and six thousand dollars to be raised for the Woman's college fund. Two thousand a day. But that's not all. Dr. Harker said last night he absolutely did not know where to get another \$100. Most of the workers felt the same. All of them believe in the people of Jacksonville, though several of them express the wish that all of the people of Jacksonville had been like those who subscribed readily and generously. It would have made the work easier and more delightful. After all, the things worth doing always come at a high price of service and sacrifice. It is the making of men and women that they must strive and plan; pull hard on the hill; take a half-hitch and start again; often face defeat or even disaster, but turn the whole into victory at the last moment. That's character building, for it makes for character.

But this forward movement campaign is a difficult situation. Its useless to deny that. The \$6,000 would be easy if all should do as well as many have done. There's no going behind the bush about this. There's no palaver about it. Counselor Harker said last night: "Morgan county outside of Jacksonville hasn't done much. Evidently it doesn't intend to. It has done better than some people in Jacksonville who, could if they would. But why multiply words. Everybody knows this situation and everybody understands it. \$54,000 in conditional pledges will be valid if \$6,000 more are pledged by midnight Saturday. If not none will be valid. There are just two elements of progress in a campaign like this. The first is publicity. If this forward movement has not had publicity, what thing in Jacksonville ever did have. Its known all over the state and various and sundry cities are writing about it. What they are writing is very complimentary to some of the people in Jacksonville. The second factor is organization. Dr. Nate, Dr. Willetts, President Agnew and other who have been here since the campaign began say they never saw a better organization. I have never had a more loyal or efficient organization than this. What's the matter? There's nothing in reserve. There's nothing up anybody's sleeve, or down anybody's bootleg. The men are busy, the women are busy, but they are all a little fearful of the result. Not exactly discouraged, but tending that way."

The entire list of subscribers to the Illinois Woman's college forward movement will be published in the Journal tomorrow morning in alphabetical order. There will be an interesting scanning of that list. Additions will be published Saturday and Sunday. Friday morning will report results to date. Saturday morning will report progress. Sunday morning will report victory or defeat. Which shall it be?

### SPRINGFIELD OFFICIALS ENGAGE IN BIG ROW

Mayor Schnepf and Commissioner Coe Make Charges and Counter Charges—Grand Jury May Investigate.

The city commissioner of Springfield have engaged in a lot of wrangling during the past few months and the most recent trouble has been between Mayor Schnepf and Commissioner Coe. The mayor called the Commissioner incompetent and suggested his resignation. Commissioner Coe demanded of Schnepf, the refunding of \$1134 to the city paid to the mayor's son, Delmar, while the latter was employed in the street department of the city from January 1910 to March 1912. Schnepf denied the obligation saying that it was the place of the commissioner to watch the city's finances, and to stop the payments if they were not legitimate. If he did not do so he is not fit to take care of the duties of his office and should resign. If he believed the money should never have been paid he should never have allowed the matter to be O. K'd by the commissioners as a whole. Coe followed with intimations that the mayor himself is not above suspicion, threatening to make it hot for him for alleged negligence in enforcing some of the laws restricting the saloons.

The Haenig Electric company, which had a recent city contract, characterized as absolutely false the imputation that they were in any way guilty of any irregularities. Their contract, they claim, was filled to the letter, and was pronounced first class and complete by the city electrician. The mayor, they say, is putting them in a very bad light for the sake of furthering his own interests. This view is strengthened by Commissioner Spaulding's recent statement of the fair, which clears the electric company of any imputation of dishonesty.

The end of the quarrel is not yet. Coe insists that he will have more to say on the matter, and the mayor it is said is gathering all data he can, with a view to presenting it to the grand jury. The commissioner feared the mayor to do his worst, saying that he was willing to stand on his records and would go before the grand jury without hesitation.

### BENJAMIN R. UPHAM CELEBRATES EIGHTY-THIRD BIRTHDAY TODAY

Has Been a Resident of Jacksonville Since 1856—Came to This City From Beardstown.

Few people who attain the age of 83 years are as active as is Benjamin R. Upham, a resident of this city since 1856, veteran of the civil war and former county and city clerk, who is today observing the 83rd anniversary of his birth.

Mr. Upham was born in Youngstown, Ohio, Feb. 27, 1830, and was a schoolmate of the late General B. H. Grierson, the two occupying the same seat at school. Mr. Upham came to Jacksonville from Beardstown in 1856, he having held the position of bookkeeper for a packing and grain firm at that place. For some time he was in the grocery business in this city with Preston Spates and later with John M. Snyder, and for the past thirty years has been engaged in the real estate and insurance business.

At the outbreak of the civil war Mr. Upham enlisted in the 114th Ill. Vol. Inf., and served through the four years of that conflict. For four years Mr. Upham served as town clerk of Jacksonville, from 1873 to 1877, and the following nine years, until 1886, he served as county clerk of Morgan county. Mr. Upham is unusually active, both mentally and physically, for a person of his age and bids fair to enjoy many more birthdays.

It will be remembered that Medford Cruikshank is the man who mysteriously disappeared a short time ago and was not found until thirty-six hours later, when he walked into his home, three miles south of Springfield. He attributed his absence to "lapse of memory."

# SEALY

'The Mattress That Puts Them All to Sleep'

NOT TUFTED, GUARANTEED 20 YEARS

Has been tried and approved by half a million people. No better mattress could be made at any price, yet it sells within the reach of everybody.

At first sight it is hard to make people understand the wonderful qualities of a Sealy Mattress.

It looks different and feels different from any mattress.

It violates all the hoary-headed mattress traditions. Instead of being straight and dotted with tufts, it is smooth and curved. Instead of being hard to the touch, it yields to pressure with the gentleness of a fine pneumatic cushion, and yet with none of the clingingness of the old feather bed.

One has to sleep on it to understand why it is that so many who have tried the Sealy mattress refuse to use any other kind.

We are willing to let customers prove this mattress out for themselves, to send one to your home and to take it back any time within 60 days, if it is not all you hoped it would be.

You are the sole judge of its merits. There will be no quibble about it. Any mattresses returned are sent right back to the factory and are not sold again.

#### Smock-Harney

The marriage of Troy Norman Smock and Miss Lena Harney was performed by Judge E. P. Brockhouse at the Court House Wednesday morning. The bride is the daughter of W. E. Harney and the groom is the son of Isaac Smock, both families residing at Murrayville. The young people will live on a farm near Murrayville.

#### Sitton-Tribble

The marriage of J. Albert Sitton of New Berlin and Miss Lula E. Tribble of Franklin were married Wednesday afternoon by Judge E. P. Brockhouse. The bride is a daughter of Mr. and Mrs. James W. Tribble of Franklin and the young people expect to reside on a farm in the New Berlin neighborhood.

#### Roegge-Koch

The wedding of Mr. Edward Roegge and Mrs. Elizabeth Koch was solemnized Wednesday afternoon at 3 o'clock at the home of the bride's aunt, Mrs. Ellen Shoney, residing five miles west of Chapin, Rev. H. G. Schwagmeyer officiating. The bride wore a gown of light gray charmeuse trimmed with pearl beading and carried a huge bouquet of bride's roses. She was attended by her sister, Miss Rose Tomhave, who wore a gown of shell pink mesaline and carried pink carnations. The groom was attended by Mr. Albert Lovekamp.

Miss Emma Tomhave, sister of the bride, presided at the piano as the bridal party entered the east parlor to the strains of the wedding march from Lohengrin and took their places in the northeast corner of the parlor, which was embellished with ferns, leaves and potted flowers. Following the ceremony Mendelssohn's wedding march was rendered. Immediately after congratulations the guests were invited to the dining room where a two-course supper was served. The dining room was artistically decorated in a color scheme of pink and white.

The bride is the daughter of Mr. Claus Tomhave and is a lady of a kind disposition. She was at one time a student of the Illinois Conservatory of Music. The groom is a son of Mr. William Roegge of Arenzville and is an upright, energetic man. They will reside on a farm five miles east of Meredosia and will be at home to their friends after March 10, where the best wishes of their many friends will follow them.

The ceremony was witnessed by the immediate relatives of the families.

### TELLS OF "AMERICAN CAMMORRA"

"White Slave Ring" Said to Have Amassed \$2,000,000 Through Recent Operations.

New York, Feb. 26.—An "American Cammorra" was described by government attorney in federal court today, Nino Sacco, of Chicago, was arraigned for alleged violation of the Mann "white slave" act. Agents of the department of justice who have been working in conjunction with postoffice inspectors in breaking up a "white slave ring" of which Sacco is said to be a leader figured that the "American Cammorra" has amassed more than \$2,000,000 through recent operations in large cities.

United States Judge Mayer held Sacco in \$10,000 bail upon the prisoners pleading of not guilty. Postoffice money orders, declared to have been sent to two convicted "white slave" show that young women were sent from this city to Sacco's care in Chicago, according to government counsel.

### \$15,000 NECKLACE IS RECOVERED

Watchman Finds Jewels in Rubbish Pile and Gives Them to Child.

Chicago, Feb. 26.—The pearl necklace belonging to Mrs. A. A. Sprague H. Chicago, valued at \$15,000, which was lost on a sleeping car between Boston and Chicago last September has been returned to its owner.

While the police of a score of cities, and numerous private detectives were searching for the ornament it adorned the person of a 5-year-old, one of the six children of a crippled night watchman. The child's father's identity has not been disclosed further than he is employed at a factory. The man found the necklace in a pile of rubbish near the railroad track and not knowing its value gave it to the little girl to play with. Recently the child, attracted by some beads in the window of a jewelry shop, proudly showed the proprietor that she, too, had some pretty ones. The jeweler recognized the value of the jewels, the owner was advertised for and eventually they were returned to Mrs. Sprague. The watchman has been liberally rewarded.

### RODE ABOUT WITH MURDERED MAN

Slayer Tells on Witness Stand that He Killed in Self Defense.

Salem, Mass., Feb. 26.—For half an hour after he had killed George E. Marsh, an aged manufacturer of Lynn, William A. Dorr drove up and down the Lynn Boulevard with the body propped up beside him, but though it was light he attracted no attention.

This is part of the remarkable story Dorr told to a jury before whom he is being tried for murder.

The state alleges that Marsh was murdered in order that the defendant might profit indirectly through a trust fund which he thought would go to his aunt, Miss Orpha Marsh, with whom he lived in Stockton, Cal., upon the death of Marsh.

Dorr's plea is self-defense and he took the stand to tell how he killed Marsh.

While he and Marsh were driving in an automobile Marsh made an insinuation remark about Miss Marsh they quarreled and the defendant started to leave the car. Marsh tried to stop him and was shot in the scuffle that followed.

On cross-examination Dorr stuck to his story practically as he had first related it. He defense rested its case tonight.
